

# Painted Seashells

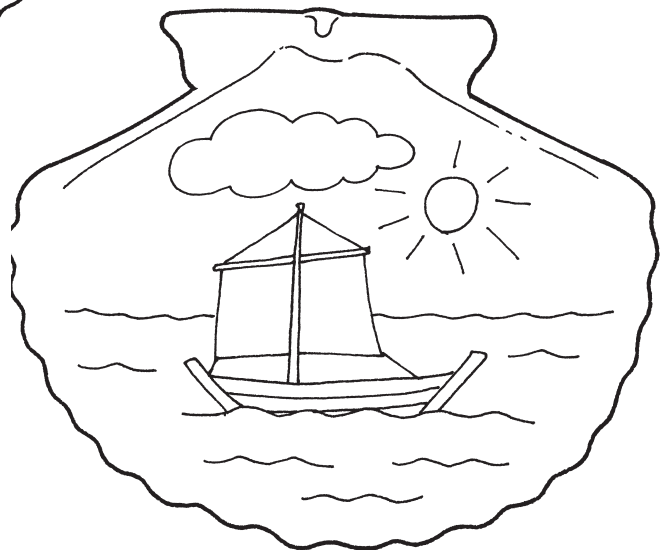

Grades 3–8

## Materials:

Clean seashells	Brushes
Tempera paint	Newspapers
Liquid soap	Containers for the paint

## FAITH CONNECTION

*Point out that it is common for priests and deacons to use a seashell to pour the waters of baptism over the heads of those being baptized.*

## Directions:

1. Mix a few drops of liquid soap into the tempera paint. The soap will help the paint stick to the shell.
2. Have the students paint their names and dates of Baptism on the outside of the shells.
3. Have the students paint an appropriate scene on the inside of the shells.
